Other qualifications

Has conducted three event analyzes on assignment of
SLAO (Svenska Ski areas Organization). They included
three avalanche accident 2012,2013 and 2014. The
assignment also included the change of work that was
needed, to develop safety within ski areas, in
cooperation with medical personnel and the mountain
rescue.

My years in the ski patrol has always included avalanche
control work.

Languages

I communicate (oral and written) fluently in English.

Understand a bit of French. Not fluently.
