

Helicopter Rescue Equipment

20161031-AIR-REC0005 Air Rescue Commission Recommendation

1. ICAR strongly recommends to equip any helicopter dedicated to air rescue with a:
 - a. **RESCUE HOIST** (min. 2 person load), and/or
 - b. **DOUBLE ATTACHMENT POINT SYSTEM** for **HEC** fixed line operations.
2. The pilot has the final word in approving the on-board equipment he decides to operate.
3. The pilot and the on-board rescuer (chief, leader) should collaborate to determine tactics and/or techniques to be used.
